#### Brief Description of Arguments to be Presented:

The rejection set forth does not identify how or why the applied reference discloses a discarding-time storage means and appears to merely assert that a storage device or a memory inherently includes the feature. The same defect exists with regard to the proceeding means "reading the tile discarding time corresponding to the rank read." The Jokipii reference cannot for support an inherency rejection as one could follow it without producing a rank based discard time function. The Examiner has misread the Kim reference as it does not teach a time limit based on rank level of player.

An interview was conducted on the above-identified application on \_\_\_\_\_

NOTE: This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 713.01).

This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of the substance of this interview (37 CFR 1.133(b)) as soon as possible.
